Our Classic Programme combines fun and challenging lessons with a full activities programme. As both a tourist and a language learner, you'll have a truly unforgettable experience!

Lessons are project-based, and are designed to build your confidence with spoken English; on trips, you'll discover top tourist destinations like London, Oxford and Bath (see timetables for details); and on other activities you'll develop soft skills such as leadership, teamwork and presentation skills.

We follow the British school tradition of 'houses'. On arrival, you'll be placed into one of three houses, each with a different name and colour. During daytime activities, you'll work with other students from your house group; and towards the end of the week, you'll compete against the two other houses in evening activities. The winning house is announced at the end of each week. This system creates a sense of identity, community and collaboration, and helps build friendships across cultures. Join us and spend an amazing summer with students from all over the world!
